

# Mini Hours Program

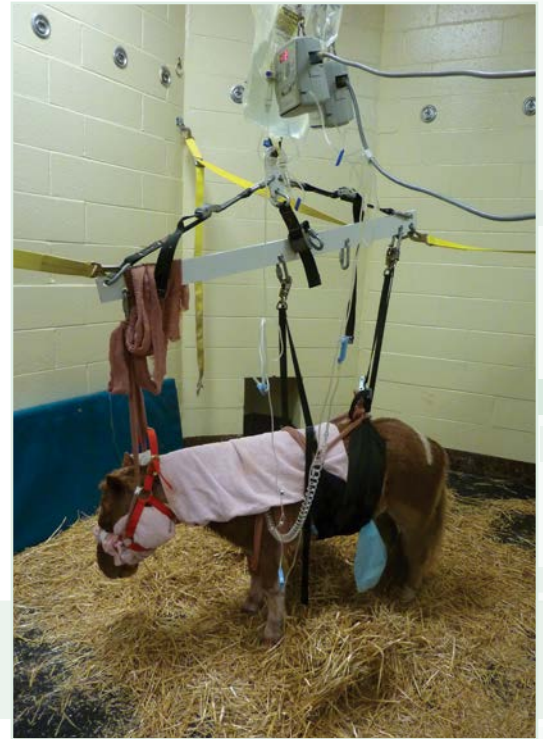

---

In the October/November issue of MHW magazine, the AMHA announced the launch of the "Mini Hours" program. The launch was announced on Facebook as well and the response to be enrolled in this program was a bit overwhelming! We are happy to announce we have 121 AMHA horses already enrolled in this brand new program!

Mary Adams of West Suffield, CT is our first enrollee to achieve the 100 hour landmark. She will receive an AMHA Mini Hours certificate confirming her first goal has been achieved in the program. She can then continue logging hours, working toward the next goal of 500 hours accomplished.

Mary achieved these logged hours in an unplanned manner when her mini OTM Ricochet (Rusty) was horrifically attacked in his stall by a bobcat! The result was 2 week stay at the vet and near constant after-care which is still being continued even now. The doctoring process is very labor intensive, as his massive neck wounds had to be flushed daily along with eye treatments and antibiotics 3 times a day.

We'll wishes to Mary and Rusty- with hopes he continues to heal and he and Mary can log in many more hours together under more auspicious conditions! Congratulations Mary!
